

**Performs both days May 13th and May 14th, 2026**

---

## **Monday FIFTH GRADE FARMERS**

**Farmer Somiete:** Farming starts early. The sun is barely up when we begin working.

**Farmer Laretta:** Good crops don't grow by accident — they grow because we care for the land.

**Farmer Jordyn:** The soil has to be just right before we plant the seeds.

**Farmer Nathan:** If we take care of the soil, the soil takes care of us.

**Farmer Liz:** Some days are hot, some days are muddy, but farmers keep going.

**Farmer Jesus:** There's pride in growing healthy food for families

**Farmer Leah:** Tomatoes, corn, beans, and peaches all grow right here.

**Farmer Siph:** When the harvest comes in, it makes the hard work worth it.

**Farmer Alaeyah:** Every plant needs sunshine, water, and patience.

**Farmer Saniyah:** Watching something grow from a tiny seed is amazing.

**Farmer Somiete:** Farming isn't easy work, but it's important work.

**Farmer Laretta:** We help bring healthy food to our community.

**Farmer Jordyn:** The wind feels stronger than usual today.

**Farmer Nathan:** Those clouds are moving really fast.

**Farmer Liz:** The sky looks darker over the fields.

**Farmer Jesus:** I think a storm might be coming.

**Farmer Leah:** Everyone should start putting the tools away.

**Farmer Siph:** We should head for cover before the storm gets worse.

**Farmer Alaeyah:** Dominga! Dominga! Did you hear us?

**Farmer Saniyah:** Wait a minute... look over there.

**Farmer Somiete:** There's a hummingbird flying right near Dominga.

**Farmer Laretta:** That storm is getting stronger — everyone inside!

---

### **Transition into the Tornado Scene**

#### **Stage Action**

- Farmers run off stage toward the barn or house.
- Dominga stays because she has **earbuds in listening to music.**

**Dominga (removing earbud slowly):**

What... was that?

*(Spark the hummingbird appears.)*

**Spark:**

Hello, Dominga.

**Wind begins building → Tornado cue**
